

BRAND KIT v1.0 · SEPTEMBER 2026

Brand Kit.

The AI marketing team and WhatsApp commerce platform built for African businesses. How we look, sound and show up, in one place.

Fluxmuse Pty Ltd
South Africa

fluxmuse.ai
App and marketing site

For
Team, designers, agencies, partners

Source of truth
00_FACTS_AND_ASSUMPTIONS.md

Receipts and revenue, not jargon

Why FluxMuse exists, what it stands for, and the one sentence everyone on the team should be able to say from memory.

MISSION	Give every African business a marketing team and a checkout, inside the chat app its customers already use.
VISION	A braider in Tembisa, a baker in Lagos and an agency in Nairobi market, sell and get paid as easily as any global brand, in their own language and their own currency.
BRAND PROMISE	Less admin, more sales you can see. FluxMuse does the planning, posting and chasing, and shows you the orders and rands it brought in.

Mission, vision and promise are v1.0 drafts written from the facts file. They need founder sign-off before external use.

POSITIONING STATEMENT

FOR solo entrepreneurs, SMEs and agencies in South Africa and across Africa
WHO sell on social media and WhatsApp but don't have the time, budget or tools for a marketing team, **FLUXMUSE IS the AI marketing team and WhatsApp commerce platform** **THAT** plans, creates and publishes their marketing, then sells and gets paid inside the chat. **UNLIKE** tools built for card-first markets and priced in dollars, **FluxMuse is African-first:** WhatsApp-native, multilingual, connected to local payment rails and priced in local currency.

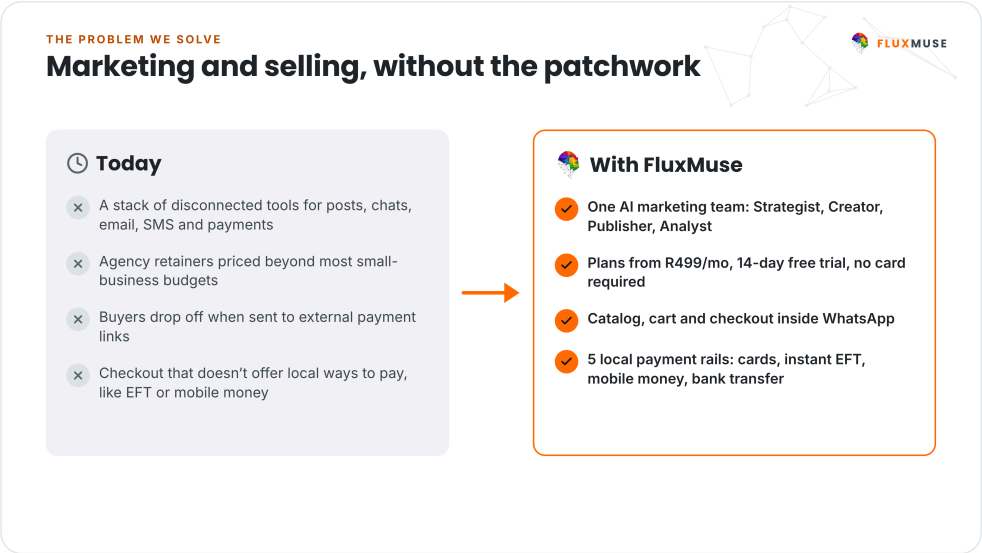

Why FluxMuse exists

Across Africa, business happens in the chat. A customer sees a post, sends a WhatsApp message, asks about stock, and then the sale stalls: a missed reply after hours, a payment link that doesn't work for them, an owner who has no time left to post again tomorrow.

Most marketing software was built somewhere else, for businesses that pay in dollars, sell through websites and hire marketers. FluxMuse starts from how African businesses actually trade.

WhatsApp-native. Catalogs, carts, checkout and order updates happen in the conversation. **Local payments.** Card, instant EFT, USSD and mobile money through Yoco, Ozow, Paystack, pawaPay and Fincra. **Multilingual.** The Creator agent writes in isiZulu, Nigerian Pidgin, Swahili, Afrikaans, English and more. **Priced locally.** Plans start at R499 a month in South Africa, with fixed local prices in naira, shillings and cedis.

We don't sell AI for its own sake. We sell a Saturday that isn't spent answering DMs, and a month-end report that shows real orders.

The problem we solve, in one board.

infographics/problem-solution.png

What we believe

The chat is the shop

If your customers are on WhatsApp, the sale should finish there too, not on a page they abandon.

Local money is not an edge case

Mobile money, EFT and USSD are how Africa pays. We build for them first.

Every language is a market

People buy in the language they think in. Multilingual is the default, not an add-on.

Proof over promises

We show orders, bookings and rands. No invented numbers, no borrowed testimonials.

Three launch segments, South Africa first

Every campaign, deck and proposal speaks to one of these three. Enterprise is not a launch target in FY1: take inbound deals, but don't build materials for them.

WHO WE SELL TO

Three launch segments, South Africa first

Gauteng pilot, then national, before Nigeria, Kenya and Ghana.

 Segment 1
Solo entrepreneurs

WHO
Founder-run businesses of 1–5 people: side hustles, beauty and braiding, fashion resellers, home bakers, coaches, informal retailers selling on Instagram, Facebook and WhatsApp

MAIN TIER
Starter R499 → Growth

PAIN
No time or budget for a marketer; posts inconsistently; loses sales in WhatsApp DMs; payment links drop off

PROMISE
"Your AI marketing team for R499/mo, and you sell right inside WhatsApp"

BUYING MOTION
Self-serve: 14-day trial → Founding Member offer

 Segment 2
SMEs

WHO
5–200 staff: retail, restaurants and franchises, e-commerce brands, clinics, property, auto dealers, education, professional services

MAIN TIER
Growth R1,999 → Scale R4,999

PAIN
6+ disconnected tools; agency retainers of R15k+/mo; no attribution from social to sales; WhatsApp handled manually by staff

PROMISE
"Replace the tool stack, sell and get paid in chat, see what drives revenue"

BUYING MOTION
Trial + guided onboarding call; proposal for multi-brand / Scale

 Segment 3
Agencies

WHO
Marketing, digital and social media agencies and freelancers managing 5–50 SMB clients

MAIN TIER
Partner R5,599 /mo, 30% off Agency

PAIN
Margin squeeze; manual reporting; too many tools per client; clients want WhatsApp commerce and AI

PROMISE
"Serve more clients under your brand: set your own retail price and keep the spread"

BUYING MOTION
Partner programme: demo → pilot client → partner wholesale plan, reseller billing

Enterprise is not a launch target: inbound deals only in FY1. Agencies buy the Agency tier at the R5,599/mo partner price (30% off R7,999).

Segment overview for decks and proposals.

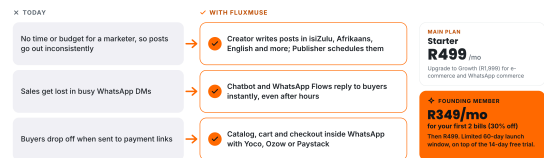

infographics/target-segments.png

LAUNCH SEGMENT 1 OF 3 · SOUTH AFRICA FIRST

Solo entrepreneurs

1-5 people: beauty & braiding, fashion resellers, home bakers, coaches, informal retailers

“Your AI marketing team for R499/mo, and you sell right inside WhatsApp”

How they buy: Self-serve: 14-day trial → Founding Member offer.

Starter R499 → Growth

Solo entrepreneurs

"Your AI marketing team for R499/mo, and you sell right inside WhatsApp."

WHO

Founder-run businesses of 1-5 people: braiders, home bakers, fashion resellers, coaches, informal retailers selling on Instagram, Facebook and WhatsApp.

PAIN

No time or budget for a marketer, inconsistent posting, sales lost in DMs, payment links that drop off.

BUYING MOTION

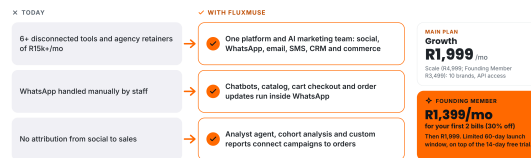

Self-serve: 14-day trial, then the Founding Member offer.

LAUNCH SEGMENT 2 OF 3 · SOUTH AFRICA FIRST

SMEs

5-200 staff: retail, restaurants & franchises, e-commerce, clinics, property, auto, education

“Replace the tool stack, sell and get paid in chat, see what drives revenue”

How they buy: Trial → guided onboarding call; proposal for multi-brand / Scale.

Growth R1,999 → Scale R4,999

SMEs

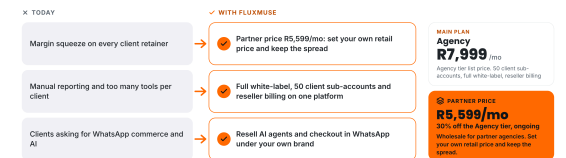

"Replace the tool stack, sell and get paid in chat, see what drives revenue."

LAUNCH SEGMENT 3 OF 3 · SOUTH AFRICA FIRST

Agencies

Marketing, digital and social media agencies and freelancers managing 5-50 SMB clients

“Serve more clients under your brand: set your own retail price and keep the spread”

How they buy: Partner programme: demo → pilot client → partner wholesale plan, reseller billing. Your spread depends on the retail price you set and your own costs.

Agency R7,999 · partners R5,599

Agencies

"Serve more clients with the same team, under your brand, at a price you set."

WHO

Marketing, digital and social media agencies and freelancers managing 5-50 SMB clients.

PAIN

Margin squeeze, manual reporting, too many tools per client, clients asking for WhatsApp commerce and AI.

BUYING MOTION

Partner programme: demo, pilot client, Agency tier with reseller billing.

WHO

5–200 staff: retail, restaurants and franchises, e-commerce brands, clinics, property, auto dealers, education, professional services.

PAIN

Disconnected tools, expensive agency retainers, no attribution from social to sales, WhatsApp handled manually.

BUYING MOTION

Trial plus a guided onboarding call; a proposal for multi-brand or Scale.

Sequence

South Africa first (Gauteng pilot, then national), **then Nigeria, Kenya and Ghana**, then self-serve in the other rail-covered countries. Botswana and Namibia are "coming soon". For agencies, never quote a fixed margin percentage (such as the "40–60%" on the /for-agencies page): margin depends on the partner's own prices and costs. Use the labelled illustrative spread in section 16.

Warm, direct, African-first, zero jargon

We sound like the sharp friend who runs a business and happens to understand AI: helpful, local, straight to the point.

TRAIT

WE ARE

WE ARE NOT

Warm

We greet people, use their name and sound like a neighbour, not a call centre.

✓ WE ARE

Friendly, encouraging, patient with first-timers

✗ WE ARE NOT

Gushing, overfamiliar or full of exclamation marks

Direct

Say the thing first. Prices, steps and next actions are never hidden.

✓ WE ARE

Clear, specific, short sentences, real numbers from the price list

✗ WE ARE NOT

Blunt, cold, or vague about what things cost

Grounded

Receipts and revenue, not jargon. We talk about orders, bookings and time saved.

✓ WE ARE

Practical, honest about what's live and what's coming

✗ WE ARE NOT

Hype-driven, techy, or promising results we can't show

Proudly African

Built here, for here. Local references come naturally, never as decoration.

✓ WE ARE

Local, multilingual, confident, specific about places and money

✗ WE ARE NOT

Stereotyped, "safari" clichés, or talking about Africa as one country

Quietly clever

The AI does the heavy lifting; the owner gets the credit.

✓ WE ARE

Smart, calm, in service of the business

✗ WE ARE NOT

Sci-fi, "autonomous overlords", or making people feel behind

Tone by context

CONTEXT	DIAL UP	DIAL DOWN	EXAMPLE
Social posts	Warmth, local flavour, one clear idea per post	Feature lists, more than 5 hashtags	"Your DMs are full of customers. Let's turn them into orders. Try FluxMuse free for 14 days."

CONTEXT	DIAL UP	DIAL DOWN	EXAMPLE
WhatsApp chats	Brevity, the customer's language, a clear next step	Long paragraphs, links without context, pressure	"Dumela Thabo. Here's your cart: 2 items, R278. Tap Checkout to pay by card or EFT."
Sales	The customer's numbers, the price, the trial	Competitor bashing, unverified results	"On Growth (R1,999/mo) your team gets WhatsApp checkout, e-commerce integrations and email support."
Support	Empathy, exact steps, ownership	Blame, jargon, "as per our policy"	"That payment didn't go through. Nothing was charged. Try again, or choose instant EFT instead."
Investors	Precision, sources, clear labels for assumptions	Adjectives, unsourced market figures	"Five payment rails secured, covering 23 African countries. Pilot underway with 12 Gauteng brands; results December 2026."

Writing rules

- **Plain language.** If a braider in Soweto wouldn't say it, rewrite it.
- **Money as people say it.** "R499 a month", not "ZAR 499". Use ₨41,000, KSh 3,999, GH¢ 339 and US\$27 in those markets. Keep "ZAR/NGN/KES/GHS" for finance tables.
- **Sentence case** for headlines, buttons and menus. The product tagline is the one title-case exception.
- **South African English** spelling: colour, optimise, programme, catalogue in prose (the product feature is "catalog").
- **Local greetings** are welcome where the audience uses them (Sawubona, Dumela, Howzit, How far, Habari). See the language notes below.
- **Inclusive.** "Business owner", "team", "they". Informal and township businesses are businesses. No "emerging-market" condescension.
- **No jargon:** omnichannel, synergy, leverage, funnel optimisation, LLM, RAG. Say what it does.
- **No hype:** revolutionary, game-changing, 10x, supercharge, unleash, disrupt, "guaranteed results".
- **Numbers only from the facts file.** No customer counts, ratings or testimonials until consented pilot data exists.
- **Name the agents** (Strategist, Creator, Publisher, Analyst) when it helps. Never call them "employees" or "replacing staff".

Say this, not that

✓ Say

Your AI marketing team plans the posts, answers the chats and takes the payment. You run the business.

✗ Not

~~Leverage our revolutionary AI-powered omnichannel solution to 10x your ROI.~~

✓ Say

From R499 a month. Try it free for 14 days, no card needed.

✗ Not

~~Plans from ZAR 499/month*. T&Cs apply.~~

✓ Say

Pilot underway with 12 Gauteng brands. Results December 2026.

✗ Not

~~Trusted by 200+ businesses. Rated 4.9 stars.~~

✓ Say

Sell on WhatsApp today. Instagram publishing is coming once Meta approves it.

✗ Not

~~Auto-post to Instagram, TikTok and LinkedIn in one click.~~

Multilingual by default

The Creator agent drafts in local languages. A native speaker approves anything that goes out under the FluxMuse brand.

Reply in their language

In WhatsApp, answer in the language the customer wrote in. Mixing English with a local language is natural; follow the customer's lead.

Write, don't translate

Draft campaigns natively for each language rather than translating English word for word. Idioms and humour rarely travel.

Never as a costume

Don't sprinkle greetings into copy for a market that doesn't speak that language. Not sure? Use English.

One line on the roof, four pillars underneath

Every proof point below is verifiable from the facts file today. If a claim isn't here, check before you use it.

PRIMARY TAGLINE · IN PRODUCT

AI Marketing & WhatsApp Commerce for Africa

Use on covers, social profiles, the website hero and anywhere the brand is introduced for the first time.

An AI marketing team that works for you

Plans, writes, posts and learns, so the owner doesn't have to.

- ✓ 4 core AI agents: Strategist, Creator, Publisher, Analyst
- ✓ 23 specialist Flux agents plus an AI Agent Marketplace
- ✓ Copy in isiZulu, Pidgin, Swahili, Afrikaans, English and more

Sell and get paid inside the chat

Catalog, cart, checkout and order updates in WhatsApp.

- ✓ Verified Meta Tech Provider (Business and Access Verification)
- ✓ WhatsApp Cloud API with Embedded Signup, Flows and chatbots
- ✓ Abandoned-cart recovery and order status notifications

Built for African money

Local rails, local currency, local ways to pay.

- ✓ 5 payment rails secured across 23 African countries
- ✓ Card, instant EFT, bank transfer, USSD and mobile money
- ✓ Fixed prices in ZAR, NGN, KES and GHS; USD elsewhere

Safe to trust, easy to start

Privacy built in, and nothing to pay while you try it.

- ✓ POPIA, NDPR and GDPR ready
- ✓ Row-level security, encrypted tokens, data export and deletion
- ✓ 14-day free trial, no card required

Foundation: Fluxmuse Pty Ltd, South Africa · warm, direct, African-first voice · claims only from 00_FACTS_AND_ASSUMPTIONS.md · pawaPay and Fincra go live the week of 14 September 2026: until confirmed, say "live September 2026".

Alternate taglines

Receipts and revenue, not jargon.

Voice line. Best for agency and SME audiences, email sign-offs, talks.

Brand voice line

Your AI marketing team, right inside WhatsApp.

Solo and SME ads, WhatsApp Status, short-form video end cards.

Proposed · test first

Plan. Create. Publish. Sell. Learn.

The product loop. Social covers, explainer videos, the how-it-works board.

On social covers

Boilerplate

For press releases, partner pages, event programmes and directories. Copy exactly; don't add figures.

25 words FluxMuse is the AI marketing team and WhatsApp commerce platform for African businesses. It plans, creates and publishes, then sells in chat with local payments.

50 words FluxMuse is the AI marketing team and WhatsApp commerce platform built for African businesses. Four AI agents plan, create, publish and learn from your marketing. Customers browse, order and pay inside WhatsApp, through local payment rails covering 23 African countries, at prices in local currency. Try it free for 14 days.

100 words FluxMuse is the AI marketing team and WhatsApp commerce platform built for African small businesses and agencies. Four core AI agents, the Strategist, Creator, Publisher and Analyst, plan campaigns, write in languages like isiZulu, Afrikaans, Swahili and Nigerian Pidgin, publish across channels and learn from every sale. Customers browse a catalog, check out and pay inside WhatsApp through five secured payment rails covering 23 African countries. FluxMuse is a verified Meta Tech Provider and POPIA, NDPR and GDPR ready, priced in rands, naira, shillings and cedis. Fluxmuse Pty Ltd is based in South Africa. Try it free for 14 days.

Elevator pitches

Lead with their problem, land on the price or the trial. Never quote results before pilot data exists.

Solo entrepreneurs	SMEs	Agencies
Starter · R499/mo	Growth · R1,999/mo	Partner wholesale · R5,599/mo
10 SECONDS FluxMuse is your AI marketing team for R499 a month, and your customers can buy right inside WhatsApp.	10 SECONDS FluxMuse replaces your patchwork of marketing tools with one AI team that sells and gets paid inside WhatsApp.	10 SECONDS FluxMuse lets your agency serve more clients with the same team, under your own brand.
30 SECONDS You're doing everything: posting, replying, chasing payments. FluxMuse gives you an AI team that writes and schedules your posts in your language, answers WhatsApp chats, and lets customers pay by card or EFT without leaving the chat. It's R499 a month, and the first 14 days are free.	30 SECONDS Your team juggles separate tools for posting, email, WhatsApp and payments, and nobody can say which post drove which sale. FluxMuse brings campaigns, WhatsApp commerce, email, SMS and CRM into one platform, with local payments and reporting that connects social activity to orders. Growth is R1,999 a month for three brands.	30 SECONDS Clients want WhatsApp commerce and AI; your margins can't take another tool per client. FluxMuse Agency is fully white-label, with up to 50 client sub-accounts, reseller billing and AI agents that do the content and reporting grind. Partners pay a wholesale R5,599 a month, set the client price and keep the difference.
60 SECONDS Most of your sales start in WhatsApp DMs, and too many end there, with a missed reply or a payment that never comes. FluxMuse fixes both ends. Our Creator agent writes before-and-after posts and captions in isiZulu, Sesotho or English; the Publisher schedules them. When a customer messages, a chatbot shares your catalog, takes a deposit or an order, and sends reminders. Payments run through local rails like Yoco and Ozow. You see every booking and every rand in one place. Start a 14-day free trial, no card needed.	60 SECONDS You're paying for too many tools and still handling WhatsApp orders by hand. FluxMuse gives you four AI agents: a Strategist that sets goals and budgets, a Creator for multilingual content, a Publisher for social, WhatsApp, email and SMS, and an Analyst that learns from every order. Customers browse your catalog and check out in chat; abandoned carts get a nudge. It connects to Shopify, WooCommerce, Takealot and HubSpot, and it's POPIA ready. We'll run a guided onboarding call during your 14-day trial.	60 SECONDS Reporting and posting eat the hours you should spend on strategy, and every new client means new logins and new costs. On the FluxMuse Agency tier, your team runs up to 50 client workspaces from one place, under your brand. AI agents plan and write multilingual content, publish it, sell through WhatsApp checkout and produce the reports. Reseller billing lets you charge clients directly. Start with a demo, then set up one pilot client, and we'll build your margin model together.

The wordmark and the Muse

Use the supplied files exactly as they are. Never redraw, retype, recolour or restyle them.

Pending

Vector masters are still to be commissioned (`[[COMMISSION VECTOR LOGO]]`). The logos are small rasters (light 640 px, dark 497 px), so don't use them for print yet. The source `fluxmuse-logo-light.png` has **the left stroke of the "F" clipped**, and the light lockup inherits it. Until the fix lands, use the **dark logo or dark lockup on a Night panel** for anything external. Light files are for internal drafts only.

✓ Preferred now

Dark logo on Night #0F1419. "FLUX" orange, "MUSE" white with a red U.

`brand/fluxmuse-logo-dark.png`

"F" clipped · internal only

Primary (light) logo on white or Mist. "MUSE" in Slate #37474F.

`brand/fluxmuse-logo-light.png`

Lockup, dark. Decks, video end cards, investor covers.

`brand/fluxmuse-logo-lockup-dark-1600x600.png`

Lockup, light. Proposals once the "F" is fixed.

`brand/fluxmuse-logo-lockup-light-1600x600.png`

Icon only: the Muse

Use where the wordmark won't fit: avatars, app icons, favicons, watermarks.

On white icon-on-white-1024

On Night icon-on-night-1024

On orange: sparingly, warm facets blend icon-on-orange-1024

Transparent, 512 px fluxmuse-icon-512

What the Muse means

The icon is a head built from low-poly facets in the full Muse spectrum, resting on a fine node network.

The facets are the many voices a business speaks with: languages, channels, ideas. **The network** is the AI team underneath, connecting every conversation to a result. **The head** keeps a person at the centre: the owner's creativity, amplified rather than replaced.

This is how we describe the mark in brand materials. It is an interpretation, not a design brief for new illustrations.

BRAND KIT - LOGO

Clear space & minimum size

Keep a margin of x on every side, where x is the cap height of the FLUXMUSE wordmark.

Shaded area = protected clear space. No text, edges, other logos or busy imagery may enter it. The same rule applies to fluxmuse-logo-dark.png on dark grounds.

Minimum size

Below these sizes the wordmark and the icon's node lines stop reading.

Full logo
200 px wide on screen
40 mm wide in print

Icon only
24 px on screen (favicon)
10 mm in print

Icon clear space

Pad the icon by ¼ of its height on every side, e.g. on app icons and avatars.

Clear space = x (wordmark cap height) on every side. Minimum: full logo 200 px / 40 mm; icon 24 px / 10 mm.

brand/logo-clear-space-minimum-size.png

Backgrounds and misuse

Clear space and minimum sizes are design recommendations for v1.0, pending the vector masters.

BRAND KIT · LOGO

Logo do's and don'ts

Use the supplied files as they are. Never redraw, distort or restyle them.

✓ Do Light logo on white or Mist

✓ Do Dark logo on Night

✗ Don't stretch or squash

✗ Don't recolour

✗ Don't use low-contrast grounds

✗ Don't place on busy photos or patterns

✗ Don't rotate

✗ Don't add outlines, glows or shadows

Light logo on white or Mist; dark logo on Night. Don't stretch, recolour, rotate, add effects, or place on low-contrast grounds or busy photos.

brand/logo-misuse-donts.png

BACKGROUND	USE	STATUS
Night #0F1419	Dark logo or dark lockup	Preferred
Paper #FFFFFF / Mist #F3F4F6	Light logo or light lockup	After "F" fix
Ink #20242B	Dark logo, if Night isn't available	OK
Slate #37474F or mid-tones	Neither: "MUSE" disappears	Don't

BACKGROUND	USE	STATUS
Flux Orange #FF6A00	Icon only, sparingly. Never the wordmark ("FLUX" vanishes)	Icon only
Photography	Only on a calm, dark area, or place the logo on a Night panel	With care

Neutrals carry the page. Orange leads.

Flux Orange is the one lead accent. Paper, Mist and Night do most of the work. The Muse spectrum comes from the icon and is for small accents only. Click any value to copy it.

Use for

Segment or category tags, secondary chart series, small illustration details, the 8-colour stripe as a brand signature.

Don't use for

Body text, buttons, backgrounds behind copy, or as a rainbow gradient across a whole layout.

Watch out

Red and Green also read as error and success. Don't use them as neutral category colours next to status indicators.

Accessibility rules

Contrast measured with the WCAG 2.x formula. AA needs 4.5:1 for body text and 3:1 for large text (24 px, or 18.7 px bold).

Rule

White on Flux Orange is 2.9:1 and fails AA, even for large text. Put Ink or Night text on orange buttons and fills. For orange text or links on white, use Deep Orange #C24E00. Keep Flux Orange for fills, icons, accents and large display type on Night.

WHATSAPP CHECKOUT

Usage

- Poppins for headlines, big numbers and short labels. Never for paragraphs.
- Inter for body, UI, tables and captions.
- Two weights per layout is usually enough.

Settings

- Sentence case headlines, text-wrap: balance.
- Tabular figures for prices and tables.
- Eyebrows only in caps, with letter-spacing.

Fallbacks

- Poppins → Avenir Next → Segoe UI → Arial.
- Inter → system UI → Arial.
- Email and Office documents: Arial.

In the product: system fonts

The FluxMuse app uses the device's system UI font for speed and native feel. Screenshots will look like this, not like Inter. That's expected; don't retouch them.

Order FLX-ZA confirmed. We'll WhatsApp you tracking updates.
system-ui, -apple-system, "Segoe UI", Roboto, Arial

Real businesses, phones in hand

We have no brand photography yet. Until the pilot shoot, use product composites and infographics, and brief photographers with the direction below.

Photography direction

- **Real African SMB owners and teams**, photographed where they work: salons and braiding studios, markets and spaza shops, home kitchens and bakeries, workshops, design studios, clinics.
- **Phones and WhatsApp in hand**. Show the moment of work: replying to a customer, packing an order, showing a before-and-after, tapping to pay.
- **Natural light**, warm but true skin tones, real clutter kept in. Shallow depth of field so screens and faces read.
- **Candid over posed**. People looking at their work or their customer, not at the camera with a thumbs up.
- **Specific places**: Gauteng first (Soweto, Tembisa, Mamelodi, Sandton), then Lagos, Nairobi, Accra. Caption the city.
- **Consent always**. Signed model releases; blur customer names and numbers on any screen in frame (POPIA).

MOTIF

The node network

Borrowed from the Muse icon. Thin lines, small nodes, one orange path at most.

Avoid

× Stock clichés

Handshakes in glass offices, headset call-centre smiles, people pointing at floating holograms, glowing robot brains.

× "Africa" shorthand

Savannah sunsets, safari animals, generic "tribal" patterns, poverty imagery. We show modern commerce.

× Fake or AI-generated people

No generated faces presented as customers, and no staged "customer" photos with invented names or results.

Node network rules

- 1–1.5 px lines at 8–14% opacity (white on Night, Slate on light).
- Corners and edges only; keep it out from behind text and faces.
- At most one Flux Orange path, to hint at "the connection that made the sale".
- Never animate it into a spinning globe or a brain.

Iconography

Lucide-style outline icons on a 24 px grid: 2 px stroke, round caps and joins, no fills. Colour with Ink, Slate or Deep Orange; on Night use white or Glow.

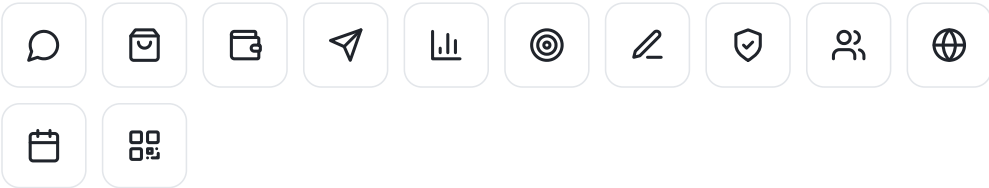

Illustration don'ts

- No 3D blobs, isometric cities or robot mascots.
- No mixing filled and outline icon sets in one layout.
- No payment-provider or platform logos as icons (write the name instead).
- No rainbow gradients built from the Muse spectrum.
- Don't redraw or animate the Muse head as a character.

Label it, source it, keep it honest

Charts and infographics carry our facts to investors and partners, so they follow stricter rules than anything else in the kit.

Chart style rules

- **Series order:** Flux Orange for the series that matters, then Slate, then spectrum accents in the order below. Five series maximum.
- **Direct labels** at the end of lines or on bars. Avoid legends when you can.
- **Money in R m** for the model and investor materials: "R12.4m", one decimal. Local currency in market slides; label FX assumptions.
- **Zero baseline** for bars. Hairline gridlines in Mist or Night-2. No 3D, no shadows, no pie charts above 4 slices.
- **Label every assumption** "est." or "indicative", with a source line under the chart.
- **Not live? Dash it.** Channels in Meta review (e.g. Instagram) use a dashed outline with an "in review" tag.
- **Figures from the financial model only.** Never draw a chart from a number that isn't in the model or the facts file.

1 · Flux Orange

2 · Slate

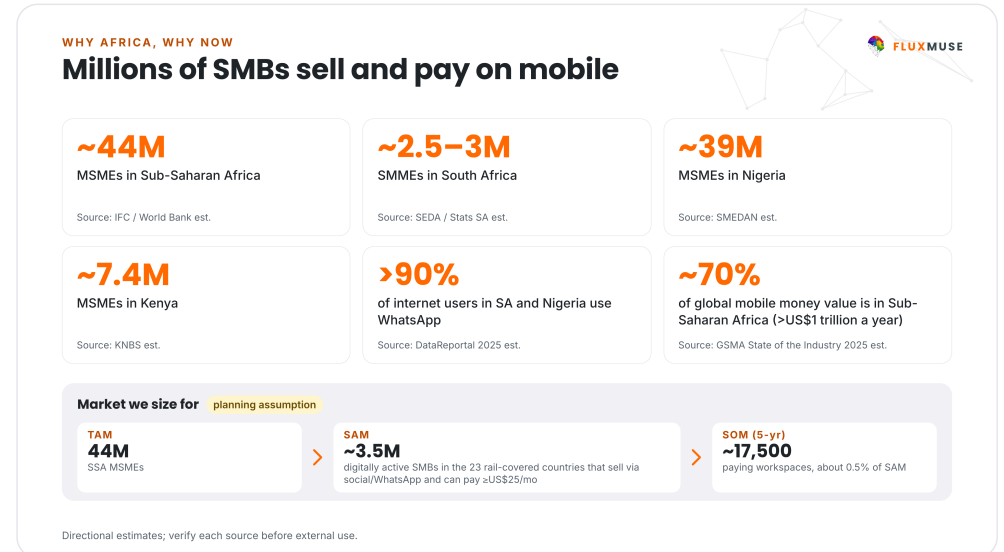

3 · Teal

4 · Violet

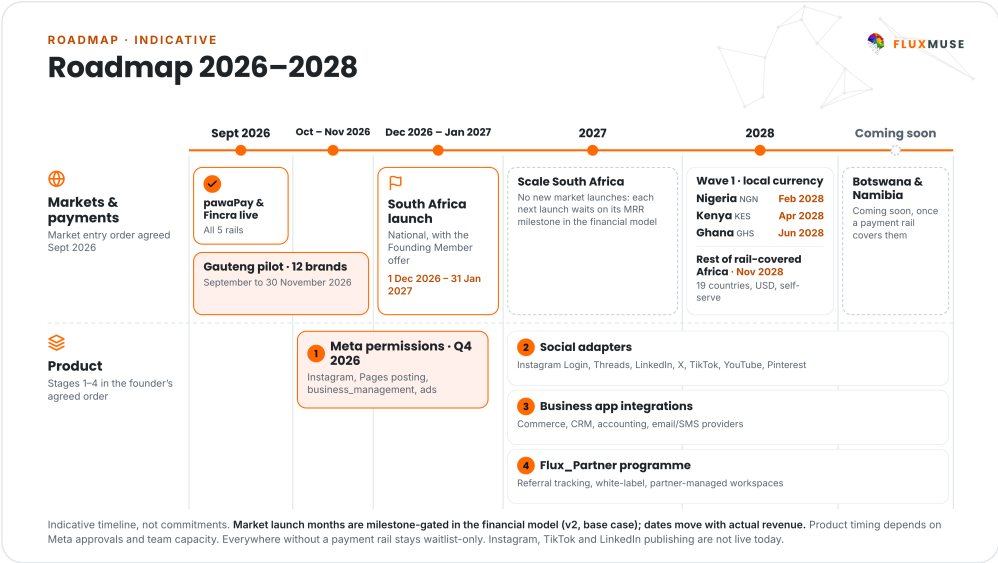

5 · Amber

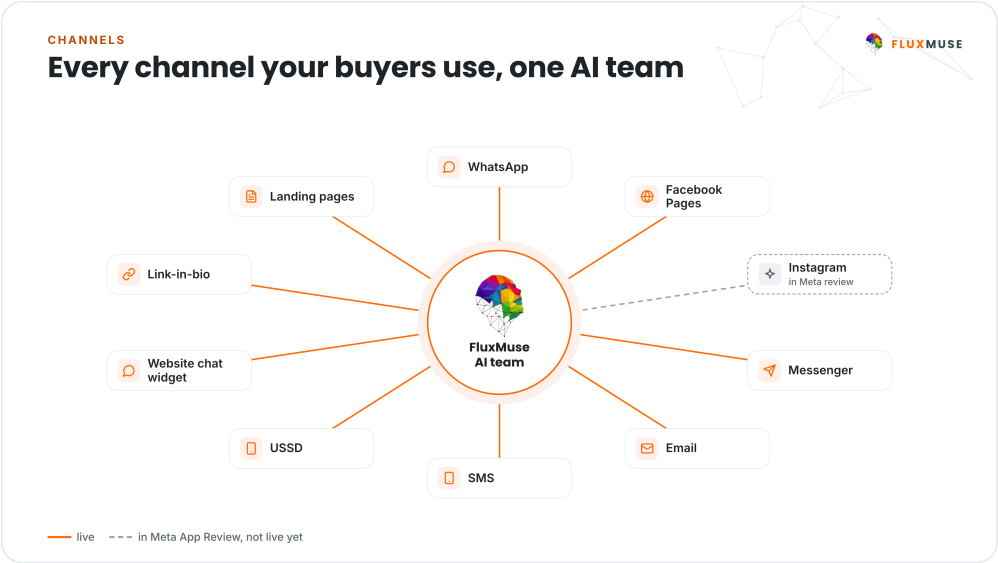

Every market figure carries "est." and a source.

infographics/why-africa-why-now.png

Timelines say "indicative" until dates are fixed.

infographics/roadmap-2026-2027.png

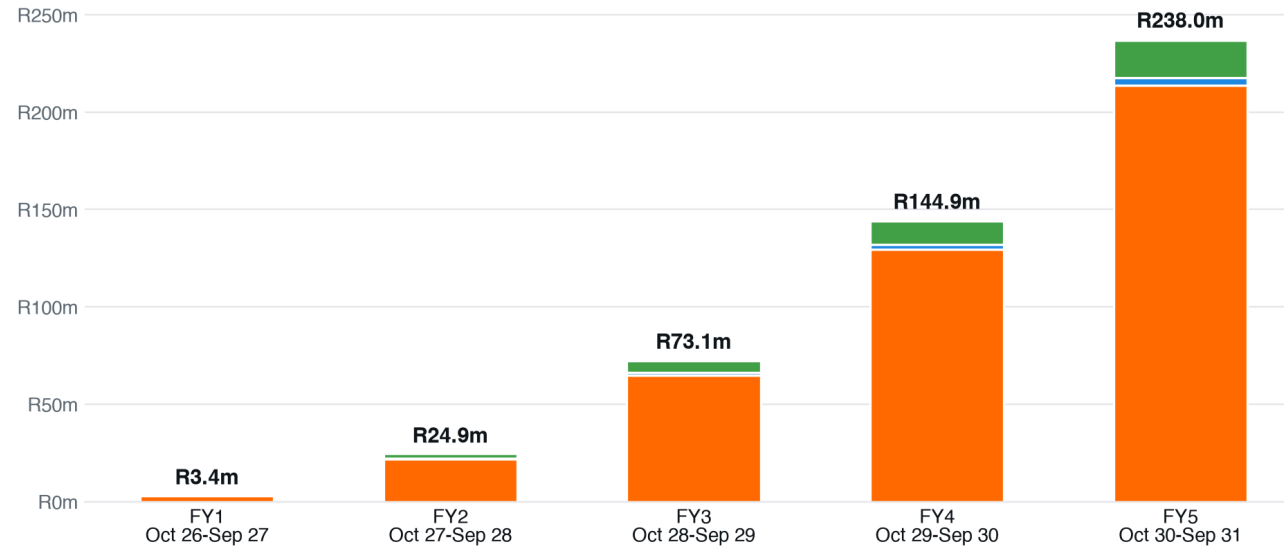

Not-yet-live channels are dashed.

infographics/omnichannel-hub.png

Revenue by stream, FY1-FY5

Base case, R million, net of launch discounts. FY5 total R238.0m (≈US\$12.9m); no commerce fee in Base

Subscriptions (net) AI-credit top-ups WhatsApp messaging Setup fees

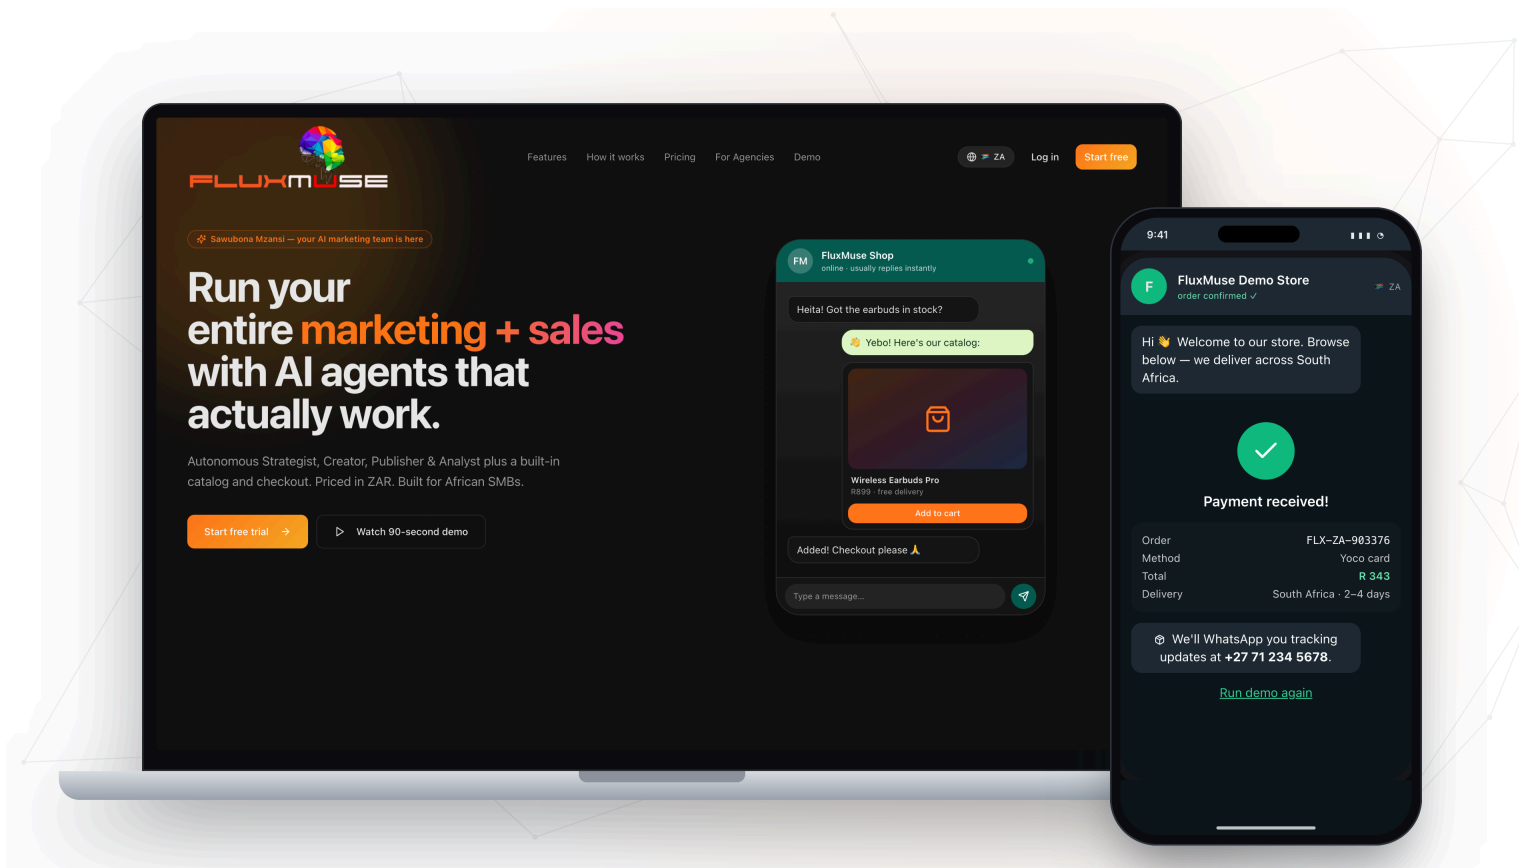

Source: FluxMuse Financial Model v2 (Base case, R25M seed), 11 Sep 2026. Forward-looking projections; assumptions to be validated with pilot data.

Model chart in house style: R m units, direct labels, Flux Orange lead series.

Show the product, not the claims

Only the screenshots and device mockups below are approved for external materials.
Several live-site captures show unverified claims and must never leave the team.

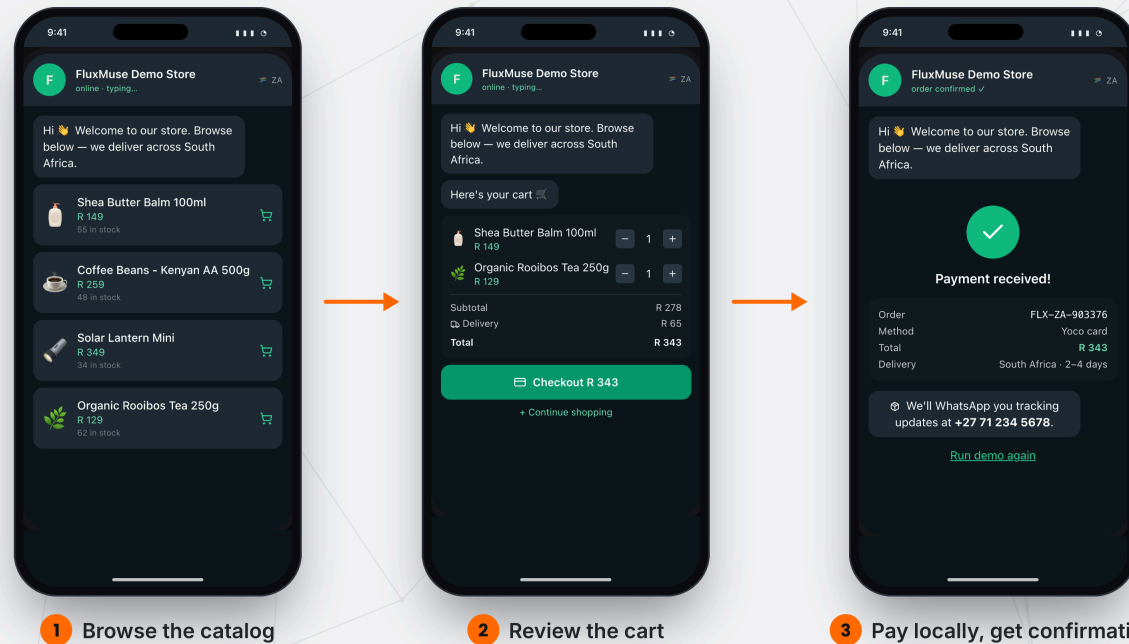

Hero composite. White for proposals and the business plan; Night for decks and investor covers.

composites/hero-laptop-phone_white.png · _night.png

WHATSAPP CHECKOUT

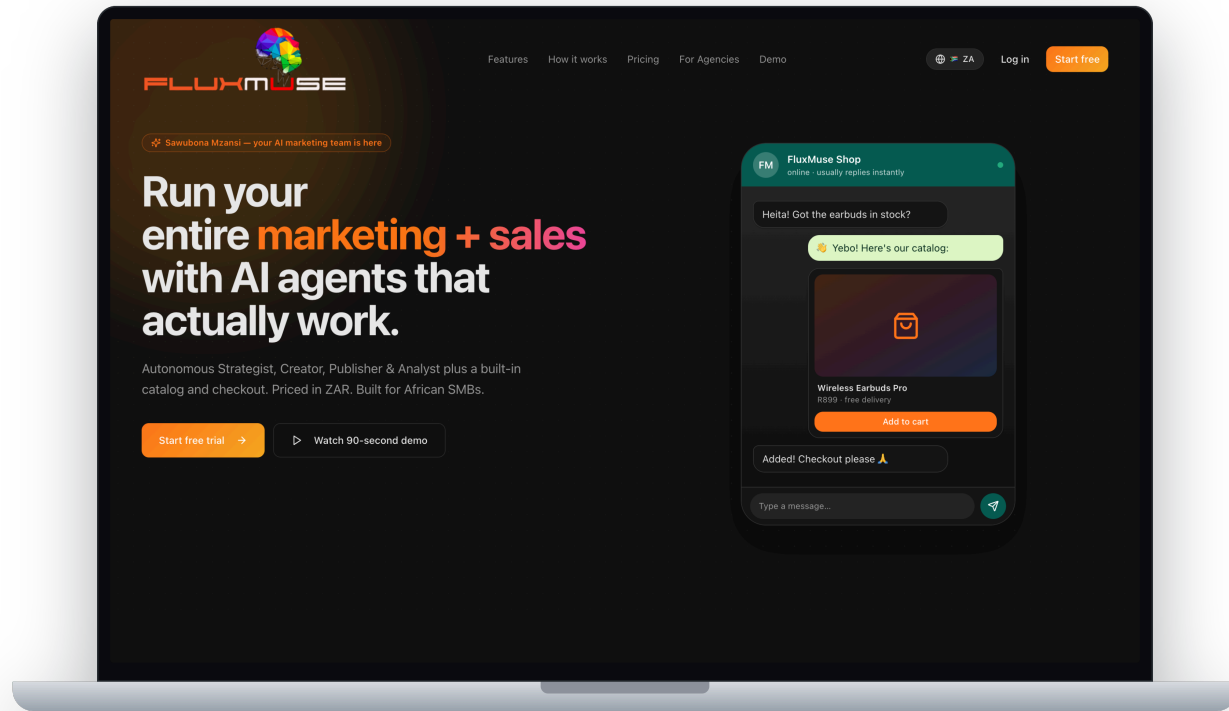

Checkout inside the chat

Interactive demo store at fluxmuse.ai/demo

The 3-phone checkout strip uses steps 1, 3 and 7, so it never shows SnapScan.

composites/checkout-in-chat-3-phones.png

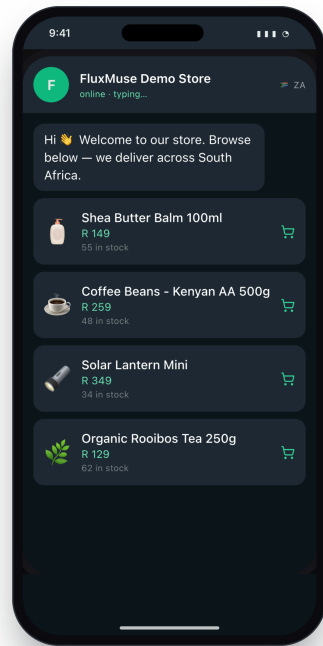

Laptop, clean home hero, footer strip painted out.

composites/laptop-home.png

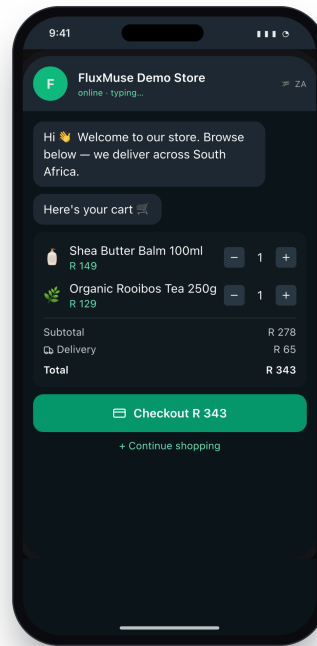

Mobile, clean.

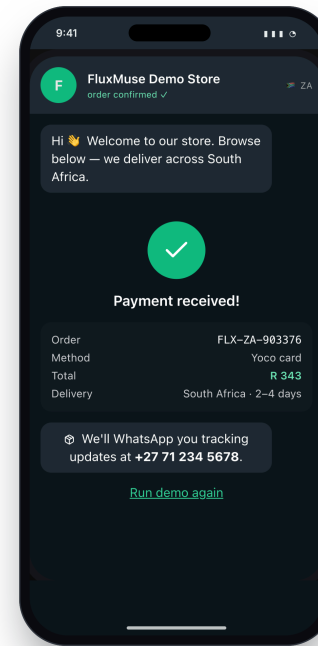

screenshots/home_clean_mobile.png

Step 1 · catalog

Step 3 · cart

Step 7 · confirmed

✓ Safe for decks

- home-hero_clean.png, home_clean_mobile.png
- browser-home, laptop-home, hero-laptop-phone_*
- checkout-in-chat-3-phones*
- Phone steps 01, 02, 03, 06, 07

✗ Internal only, never external

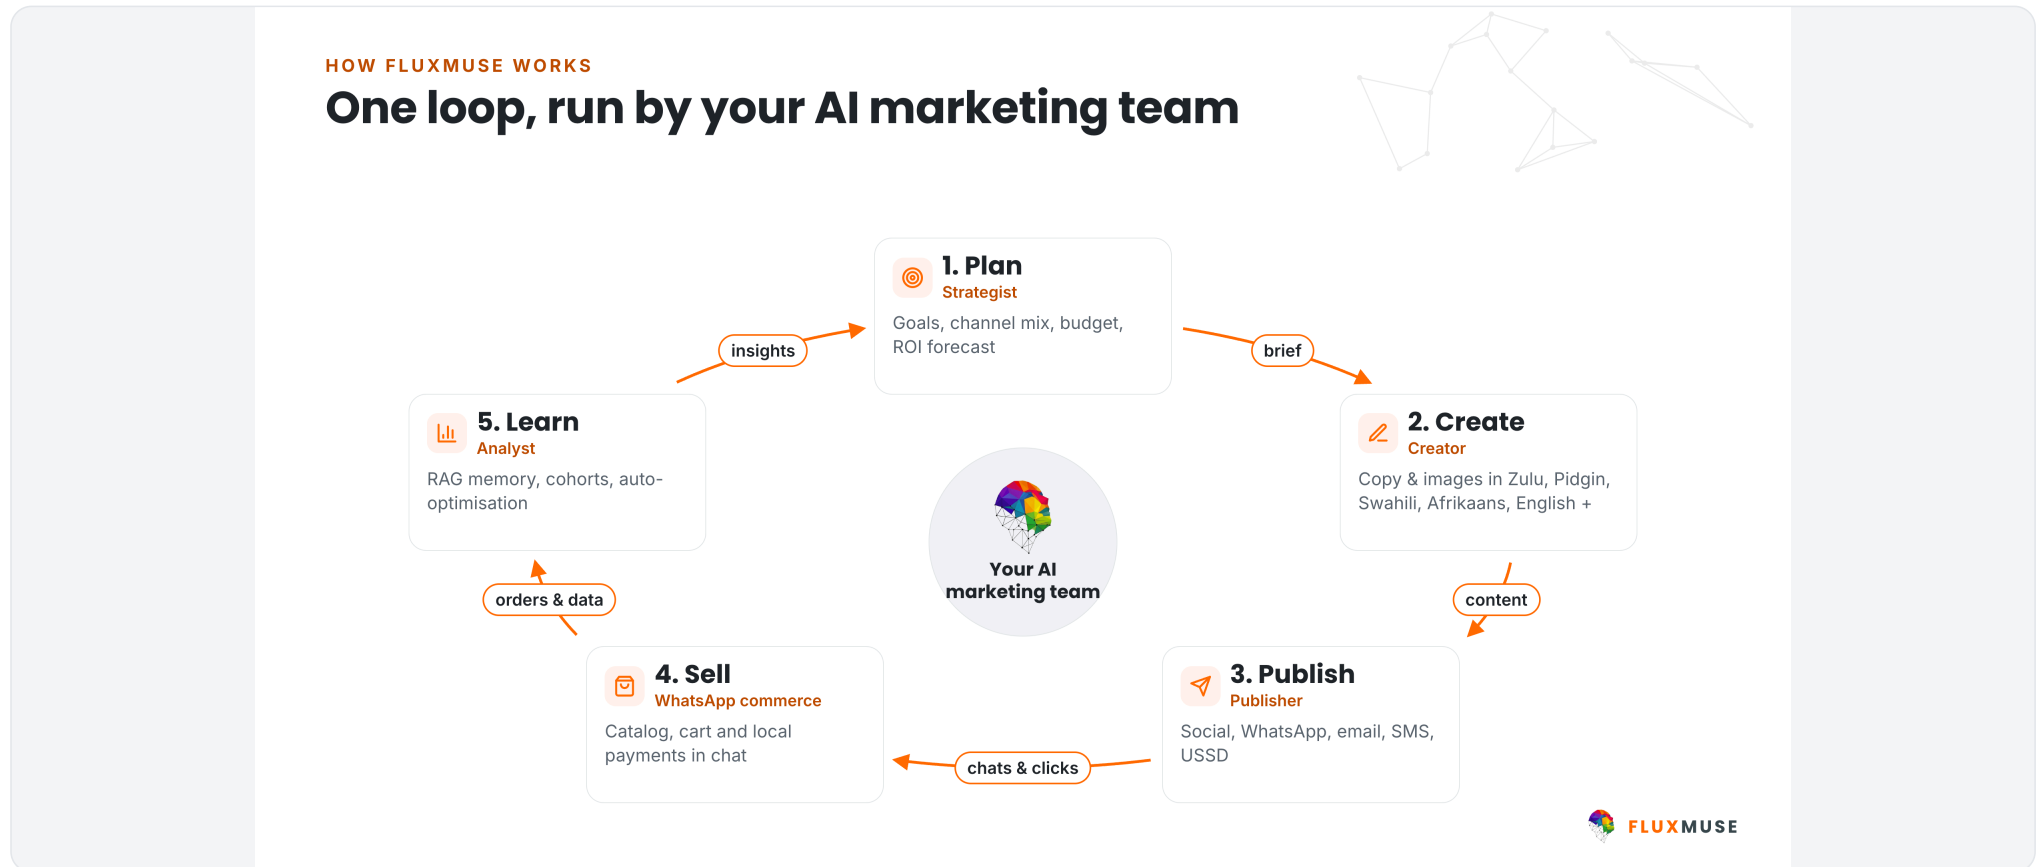

- home-hero, home_mobile, home-full (200+ businesses, 4.9 rating, reviews, off-facts prices)
- for-agencies-hero, for-agencies-full (unverified testimonial)
- features-hero, features-full, pricing-za-full

Rules

- **Don't show SnapScan:** skip steps 04–05, demo*.png, browser-demo, laptop-demo.
- **Blur customer data** (names, numbers, emails) in any new screenshot. POPIA.
- The demo buyer and order number are fictional; call it a demo.

How it works, drawn the same way everywhere

Five approved diagrams explain the product and how we work with brands and agencies. Use them as they are, rather than redrawing a new version per deck.

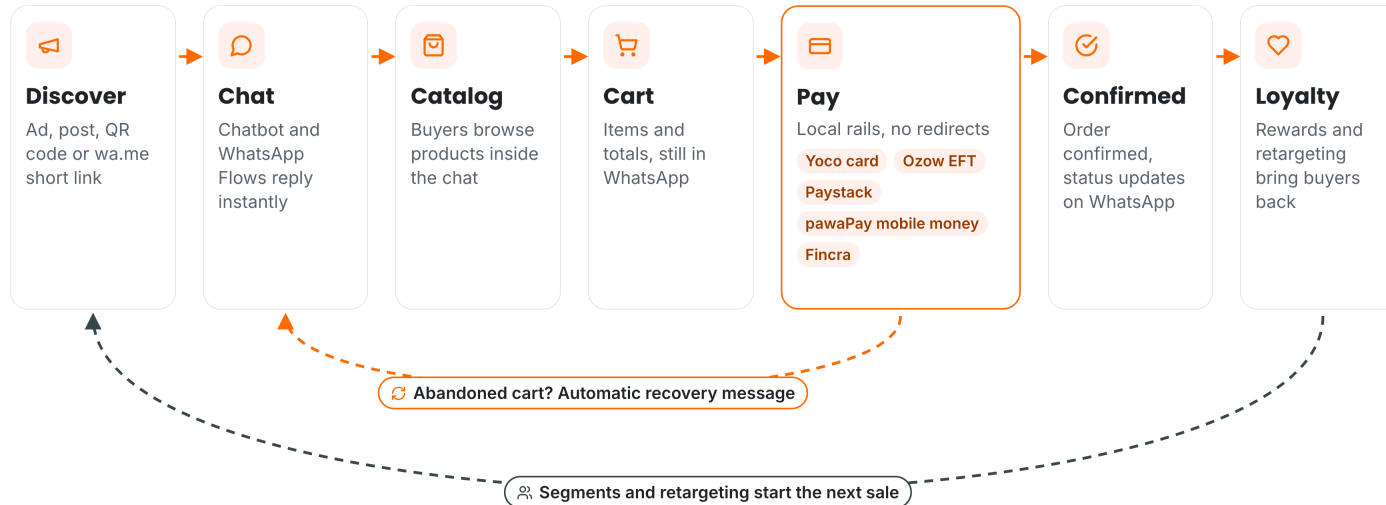

How FluxMuse works. The Plan → Create → Publish → Sell → Learn loop. Square versions exist for social.

infographics/how-fluxmuse-works.png

WHATSAPP COMMERCE

From first tap to repeat order, all inside WhatsApp

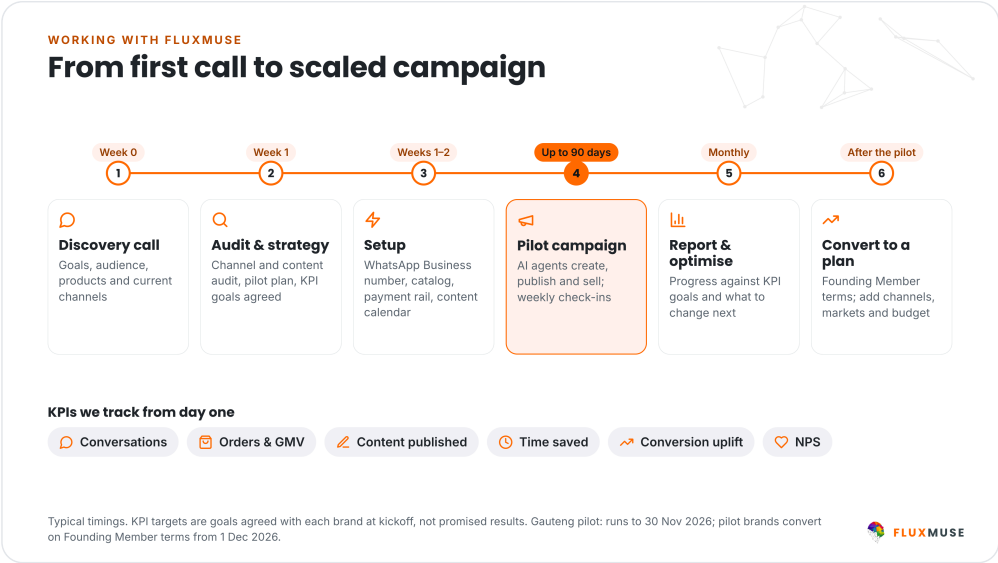

All five rails live September 2026 (pawaPay & Fincra from 14 Sept).

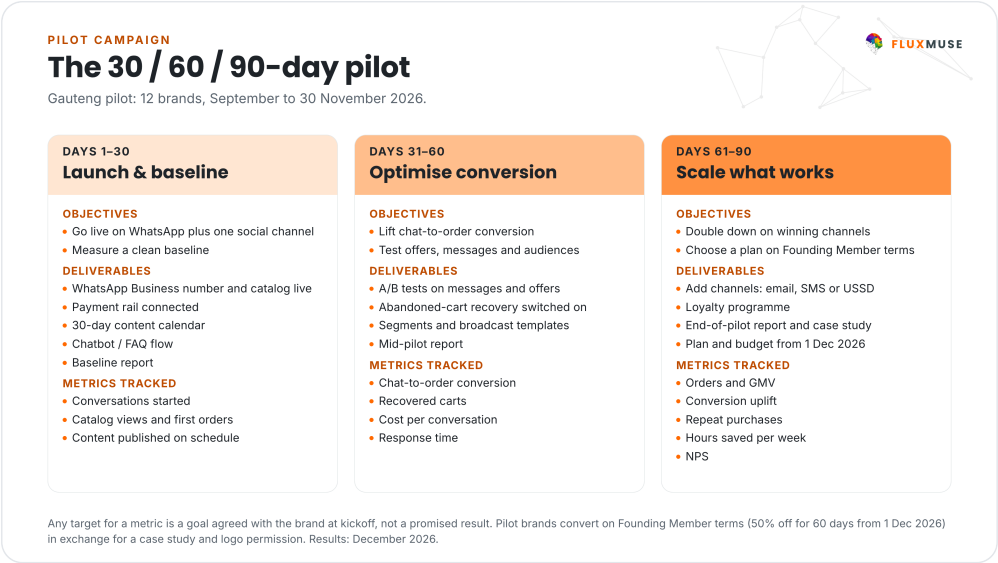

WhatsApp commerce flow. Discover to loyalty, with abandoned-cart recovery.

infographics/whatsapp-commerce-flow.png

Brand engagement journey. For SME proposals.

brand-engagement-journey.png

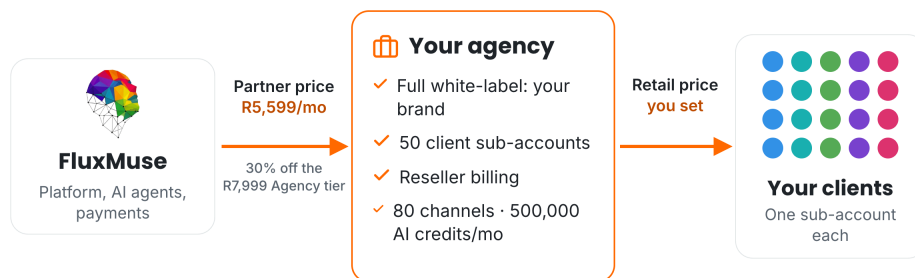

Pilot campaign framework. Objectives and metrics, no promised targets.

pilot-campaign-framework.png

AGENCY PARTNER MODEL

Resell FluxMuse under your own brand

Set your own retail price and keep the spread.

FluxMuse invoices your agency the partner wholesale price, **R5,599/mo** (30% off the R7,999 Agency tier), for 50 client sub-accounts, full white-label and reseller billing. You bill your clients at a retail price you set.

Illustrative

20 clients at R1,500/mo

retail price set by the partner

Billed to clients **R30,000**
20 × R1,500

Partner wholesale price **- R5,599**
30% off R7,999

Gross spread /mo **R24,401**

Platform cost per client: about R280/mo.

Illustrative only, not a forecast. Gross spread before the partner's own costs: delivery team, VAT, payment fees and ad spend. Margin depends on the retail price you set.

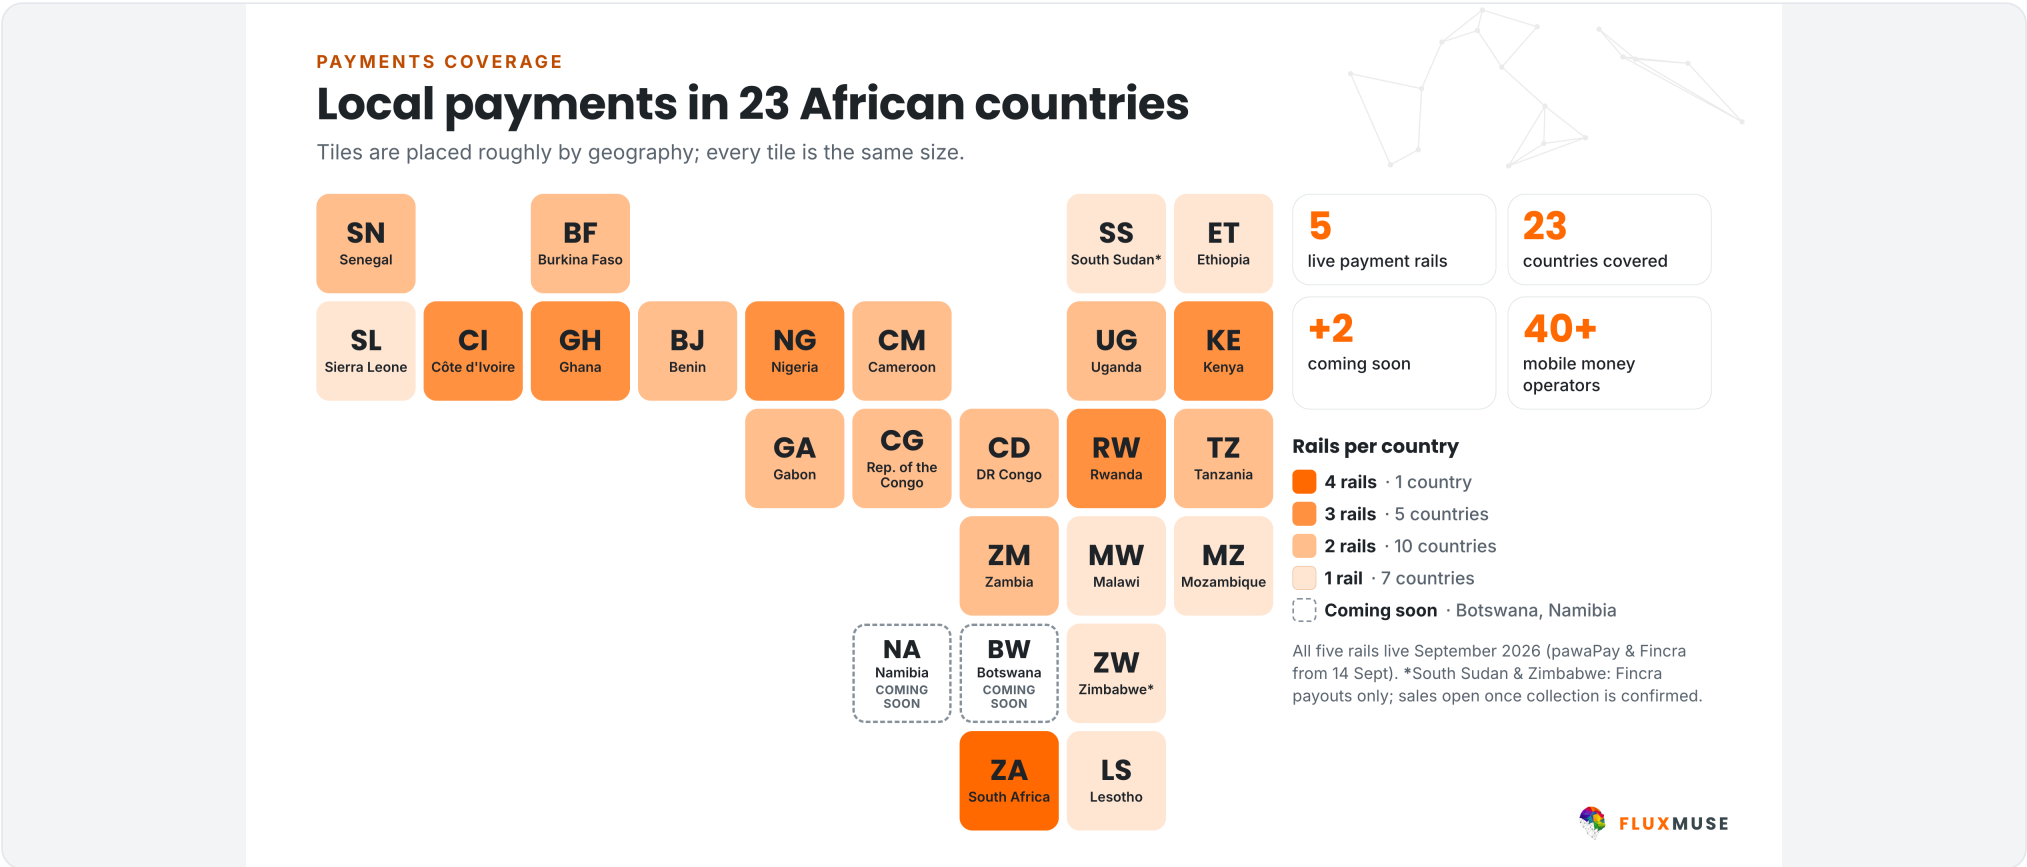

Agency partner model. The 20 × R1,500 example is illustrative; keep that label.

infographics/agency-partner-model.png

5 rails · 23 countries · +2 coming soon

The headline count is fixed. Botswana and Namibia are always "coming soon", never live. Flutterwave, M-Pesa direct, PayFast, SnapScan and Stitch are not part of the rails story.

5 payment rails secured	23 African countries open for sale	40+ mobile network operators via pawaPay	+2 coming soon: Botswana, Namibia
---	--	--	---

The five rails

RAIL	WHAT IT DOES	COUNTRIES	STATUS
Yoco	Card acquiring, tap-to-pay	South Africa	Live
Ozow	Instant EFT / pay-by-bank	South Africa	Live
Paystack	Cards, bank transfer, USSD, mobile money	Nigeria, Ghana, South Africa, Kenya, Côte d'Ivoire, Rwanda	Live
pawaPay	Mobile money collections and payouts, 40+ MNOs	20 countries, incl. Nigeria, Ghana, Kenya, Uganda, Tanzania, Zambia, Ethiopia	Live Sept 2026
Fincra	Collections (virtual accounts, cards, bank, mobile money) and payouts	Hubs in Nigeria, Ghana, Kenya, Uganda, South Africa; African payouts incl. South Sudan, Zimbabwe	Live Sept 2026
pawaPay and Fincra go live the week of 14 September 2026. Once confirmed, show all five as live.			

PAYMENT RAILS

23 countries × 5 rails, by region

Country	ISO	Currency	Billing currency	Yoco live	Ozow live	Paystack live	pawaPay live	Fincra live

South Sudan	SS	SSP	USD*	-	-	-	-	Ⓟ

available

payouts only

coming soon

All five rails live September 2026 (pawaPay & Fincra from 14 Sept). Billing: ZAR in South Africa; fixed local prices in NGN, KES, GHS; USD in the other 19. *South Sudan & Zimbabwe: Fincra payouts only; sales open once collection is confirmed.

MARKET ENTRY SEQUENCE

Where we sell, in order

1 HOME MARKET

South Africa

Billed in ZAR

- Gauteng pilot: 12 brands, to 30 Nov 2026
- Then national, from 1 Dec 2026
- Founding Member offer: 1 Dec 2026 – 31 Jan 2027

2 FIRST EXPANSION WAVE

Nigeria, Kenya, Ghana

Local currency: NGN, KES, GHS

- Paystack, pawaPay and Fincra in all three
- Founding Member offer for 60 days after each launch

3 SELF-SERVE

19 other rail-covered countries

Billed in USD

- Côte d'Ivoire, Rwanda, Uganda, Tanzania, Zambia, francophone West & Central Africa and more
- No local team until traction justifies one

4 COMING SOON

Botswana & Namibia

Waitlist only

- Shown in the region picker
- Opens once a payment rail covers them

Everywhere else: waitlist only (gated)

No prices or checkout where no payment rail can collect, including all countries outside Africa.

South Sudan & Zimbabwe (Fincra payouts only) open for sale once subscription collection is confirmed. Tiles placed roughly by geography.

Rails matrix by region and currency.

payment-rails-matrix.png

Market entry sequence.

market-entry-sequence.png

Market entry sequence

1

South Africa

Home market. Gauteng pilot, then national.
Launch window 1 Dec 2026 – 31 Jan 2027.

2

Nigeria, Kenya, Ghana

First expansion wave. All three covered by
Paystack, pawaPay and Fincra; priced in
NGN, KES, GHS.

3

Rest of the 23

Self-serve in USD: Côte d'Ivoire, Rwanda,
Uganda, Tanzania, Zambia, francophone
West and Central Africa and more.

4

Botswana, Namibia

Coming soon, once a rail covers them.
Waitlist only.

Gating rule

Prices and checkout appear only in rail-covered countries. Everywhere else,
including Botswana, Namibia and all countries outside Africa, offer a waitlist, never a
price or a buy button. South Sudan and Zimbabwe are payout-only via Fincra: treat
them as gated until Fincra confirms subscription collection.

REGION	RAIL-COVERED COUNTRIES
Southern	South Africa, Zambia, Malawi, Mozambique, Lesotho, Zimbabwe*
East	Kenya, Uganda, Tanzania, Rwanda, Ethiopia, South Sudan*
West	Nigeria, Ghana, Côte d'Ivoire, Senegal, Benin, Burkina Faso, Sierra Leone
Central	Cameroon, Republic of the Congo, Gabon, DR Congo
* Payout-only today; gated for sales until collection is confirmed.	

Say the price. Say it in their currency.

These tables are the only prices to quote. Annual = 10 × monthly (two months free).
Every plan starts with a 14-day free trial, no card required.

TIER	MONTHLY	ANNUAL	BRANDS	CHANNELS	AI CREDITS/MO	HIGHLIGHTS
Starter	R499	R4,990	1	3	5,000	Solo founders; community support
Growth Recommended	R1,999	R19,990	3	15	25,000	E-commerce, WhatsApp commerce, USSD, integrations; email support
Scale	R4,999	R49,990	10	40	100,000	API access, white-label reports, priority support
Agency	R7,999	R79,990	Unlimited	80	500,000	Full white-label, 50 sub-accounts, reseller billing, dedicated support
Enterprise	from R19,999	custom	Unlimited	Unlimited	Unlimited	SSO, SLA, dedicated AI, 24×7. Inbound only in FY1
South Africa, ZAR. The app labels Growth "most popular"; in brand materials say "recommended" until sales data supports a popularity claim.						

Regional prices

Fixed, rounded local prices at FX parity. Say "billed in local currency". Reviewed quarterly.

TIER / MONTH	SOUTH AFRICA	NIGERIA	KENYA	GHANA	OTHER 19 RAIL COUNTRIES

founding-member-offer_square.png

✓ Say

Join in the first 60 days and save 30% on your first 2 months. You'll also get a Founding Member badge and priority support.

Name the window: "limited 60-day launch window, ends 31 January 2027".

✗ Not

~~Lock in a lifetime Founding Member discount, for the life of your account.~~

The discount ends after 2 months. Mention the badge and priority support without any duration until the founder sets one.

Pilot only

The 12 Gauteng pilot brands get Founding Member terms deepened to **50% off for their first 2 monthly bills from 1 Dec 2026** (Starter R249 · Growth R999 · Scale R2,499 · Agency R3,999), in exchange for a case study and logo permission. It's not a public offer; never advertise it. No cents in any material. Don't present the "Launch Sprint" option anywhere, and never show R5,599 as a launch discount.

Pilot underway. Results December 2026.

Twelve brands in Gauteng are running FluxMuse until 30 November 2026. Until their consented data is in, we talk about the pilot, never about its results.

1

September 2026

Pilot starts: 12 Gauteng brands across solo, SME and agency archetypes. Name `[[PILOT NAME]]`.

2

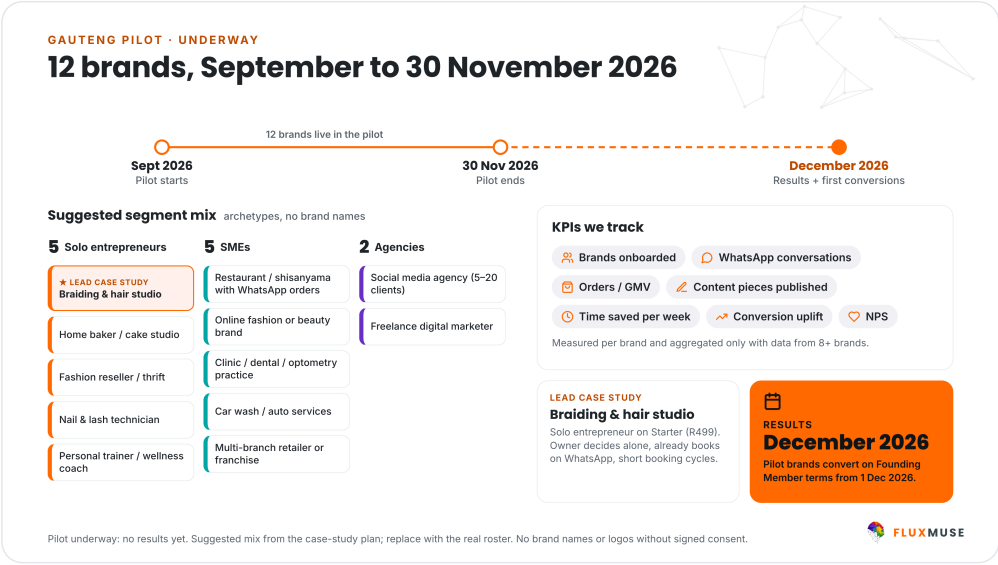

30 November 2026

Pilot ends. Consent collected for case studies, logos and quotes.

3

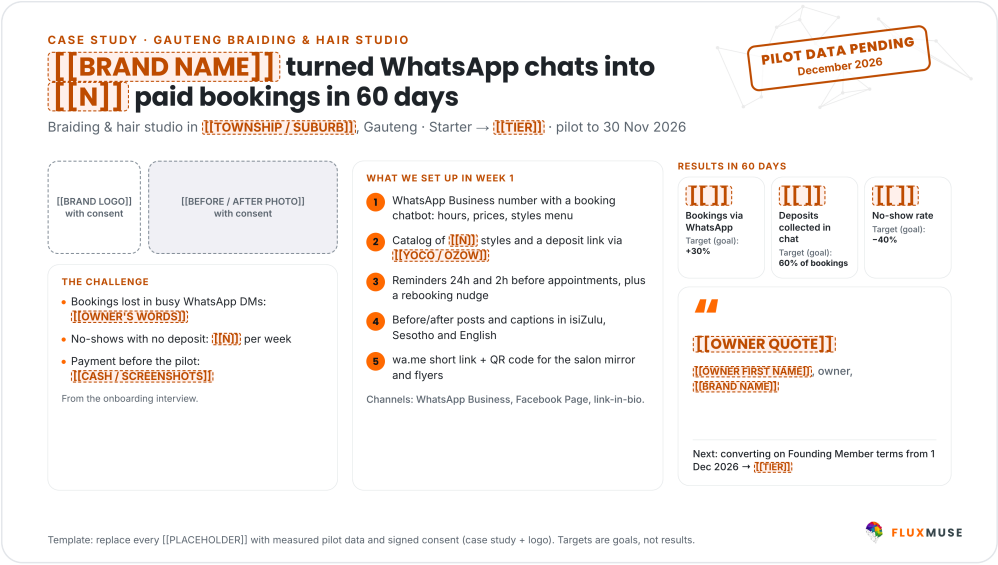

December 2026

Results and case studies published; pilot brands convert on Founding Member terms.

Pilot overview.

gauteng-pilot.png

Case study template.

case-study-template.png

Lead case study

The Gauteng braiding studio

A solo braiding and hair studio on Starter (R499), chosen as the most attainable proof point: the owner decides alone, already books on WhatsApp, and short booking cycles show results within 60 days. Content in isiZulu, Sesotho and English.

Headline format: [[BRAND NAME]] turned WhatsApp chats into [[N]] paid bookings in 60 days with FluxMuse.

KPIs to report: conversations handled, first-reply time, bookings via WhatsApp, deposits collected, no-show rate, posts per month, GMV in chat, repeat customers, hours saved. Targets are goals, not outcomes.

Claims rules

- No numbers until consented pilot data exists. No customer counts, ratings, testimonials or results.
- Aggregate claims ("across 12 Gauteng brands...") need data from at least 8 brands, and must state the period and how each figure was measured.
- No brand names, logos or photos without signed consent.
- Blur customer names and numbers in every screenshot (POPIA).
- Until 30 Nov 2026: "pilot underway, results December 2026". Never projected results.

- #AIMarketing
- #FoundingMember

#FluxMuse first, then 2–4 relevant tags. Localise per market (e.g. #NaijaBusiness, #KenyanBusiness, #GhanaBusiness). No trending tags unrelated to the post.

Your brand in front. FluxMuse behind.

Agencies on the Agency tier can white-label FluxMuse for their clients. These rules decide when our brand shows and how.

White-label

Client-facing product

Use your own logo, colours and domain. Don't show the FluxMuse logo inside a white-labelled workspace, and don't imply clients have a contract with FluxMuse.

Powered by FluxMuse

Optional credit line

Where you want to credit the platform (footers, proposals, reports), write **"Powered by FluxMuse"** as text in your body font. Link to fluxmuse.ai if you like.

Co-branded

Joint marketing

For co-marketing, webinars and the partner directory, use the co-branding lockup below. Needs written approval from FluxMuse for each campaign.

PARTNER LOGO

- Partner logo left, FluxMuse right, separated by a 1 px divider in Slate or Night-2.
- Equal optical height; FluxMuse is never larger than the partner's logo.
- Clear space of x around the whole lockup and between each logo and the divider.
- Use the dark logo on Night until the light "F" is fixed.
- Never merge the logos, recolour ours to your palette, or add "certified", "official" or "endorsed" without a written agreement.

✓ Partners may

Set their own client prices · use FluxMuse name and screenshots from the approved list · describe features exactly as in this kit · list in the partner directory.

✗ Partners may not

Advertise the Founding Member offer as their own discount · quote results from the pilot or other clients as FluxMuse results · claim Meta permissions or payment rails in their own name · register domains or handles containing "fluxmuse".

Pricing

Partners buy the Agency tier at the **wholesale price of R5,599/mo** (30% off list; ~~N463,000~~ · KSh 44,999 · GH¢ 3,799 · US\$299) and set their own retail prices. When showing partner economics, use the illustrative example only and label it: 20 clients × R1,500 = R30,000/mo, minus R5,599 = **R24,401/mo gross spread** before the partner's own costs. Never quote a fixed margin percentage. Referral commission, directory criteria and co-marketing terms: **[[PARTNER AGREEMENT TERMS]]** .

Lines to copy, claims to avoid

Standard wording for footers, decks and consent screens. Have legal counsel review before first external use.

Trademark line

FluxMuse and the Muse icon are trademarks of Fluxmuse Pty Ltd. WhatsApp, Facebook, Instagram and Messenger are trademarks of Meta Platforms, Inc. Other product and company names are the property of their respective owners.

Use ™/® only once registration status is confirmed: **[[TM STATUS]]**

Meta permissions claim rule

Approved, OK to describe as live: Pages list, Page metadata, Page messaging (Messenger), WhatsApp Business messaging and management, public profile.

In App Review, never claim as live: Page posting and engagement insights, Instagram publishing, comments and DMs, business management.

Say "verified Meta Tech Provider". Don't say "Meta partner", "Meta certified" or "official WhatsApp partner".

WhatsApp opt-in consent (POPIA)

[] Yes, **[[BUSINESS NAME]]** may send me order updates and offers on WhatsApp at the number above. I can reply STOP at any time to opt out. Read how we use your information: **[[PRIVACY NOTICE LINK]]**

Unticked by default. Record the date, source and wording of each opt-in. Separate consent for marketing vs order updates where required.

Payment provider names

- Write provider names as plain text: **Yoco, Ozow, Paystack, pawaPay, Fincra**, spelled with their own capitalisation.
- No provider logos unless you follow that provider's brand guidelines and have the current files.
- Say "payments powered by local rails like Yoco and Ozow", not "Yoco partner" or "backed by Paystack".
- Never list SnapScan, Stitch, Flutterwave, PayFast or M-Pesa direct.

Also "POPIA, NDPR and GDPR ready" is the approved phrasing, not "compliant" or "certified". Market-size figures are estimates: label them "est." with the source. Don't repeat the "40–60% reseller margins" line from the /for-agencies page; partner economics are always shown as a labelled illustrative example.

Every file, and where it belongs

Files live in docs/go-to-market/assets/. Infographics are 1920 × 1080 rendered at 2×. Rows marked internal only must never appear in external materials.
